

## Custom polls with polljoy

Hi friend! You can upload custom borders, backgrounds as well as buttons. You can also upload your own poll image, cross button and currency icon as well. All of these will make your polls feel more engaging and native, and increase the response rate. What you should prepare:

- 3 PNG images for background + border for each orientation (landscape / portrait)
- 3 PNG images for button style for each orientation (landscape / portrait)
- 1 PNG image for the default poll image (for all aspect ratios and orientations)
- 1 PNG image for the close button (for all aspect ratios and orientations)
- 1 PNG image for currency icon (if applicable, for all aspect ratios and orientations)

		BACKGROUND + BORDER				BUTTONS	
		Portrait		Landscape		Portrait	Landscape
Aspect Ratio	Popular Devices	Outer Window	Inner Window	Outer Window <sup>1</sup>	Inner Window <sup>2</sup>	Size	Size <sup>3</sup>
16:9	🍏 iPhone 5 🌐 Galaxy S4 🌐 Nexus 5	1200 x 2048	900 x 1600	2048 x 1200	1600 x 900	800 x 170	1284 x 120
3:2	🍏 iPhone 4 🌐 Nexus 7 📺 Fire HD	1200 x 1920	900 x 1400	1920 x 1200	1560 x 750	800 x 126	1185 x 100
4:3	🍏 iPads	1536 x 2048	1120 x 1500	2048 x 1536	1500 x 1120	780 x 109	1001 x 149

GRAPHIC	SIZE
Poll image <sup>4</sup>	512 x 512
Close button <sup>5</sup>	60 x 60
Reward icon <sup>6</sup>	60 x 60

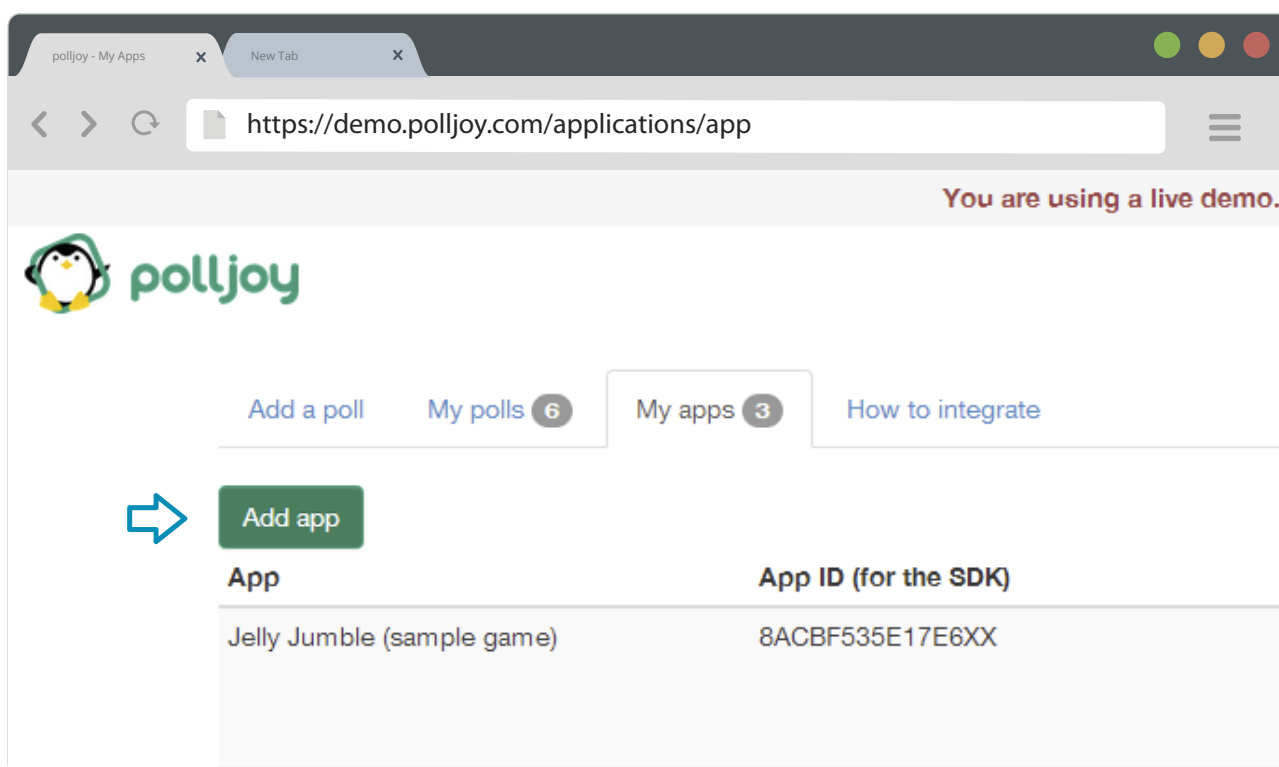

- The background & border PNG image should be the same dimensions as the outer window
- The inner window is the poll area where the content is displayed
- The border can also overlap within the inner window to some extent (as long as you don't block important information)
- Your border can extend as far as you want up to the outer window (use transparency for the rest of the area outside the border)
- We recommend to use [tinypng.com](http://tinypng.com) to compress your image files for performance
- Questions? Email us [hi@polljoy.com](mailto:hi@polljoy.com)

# Previewing your custom styles

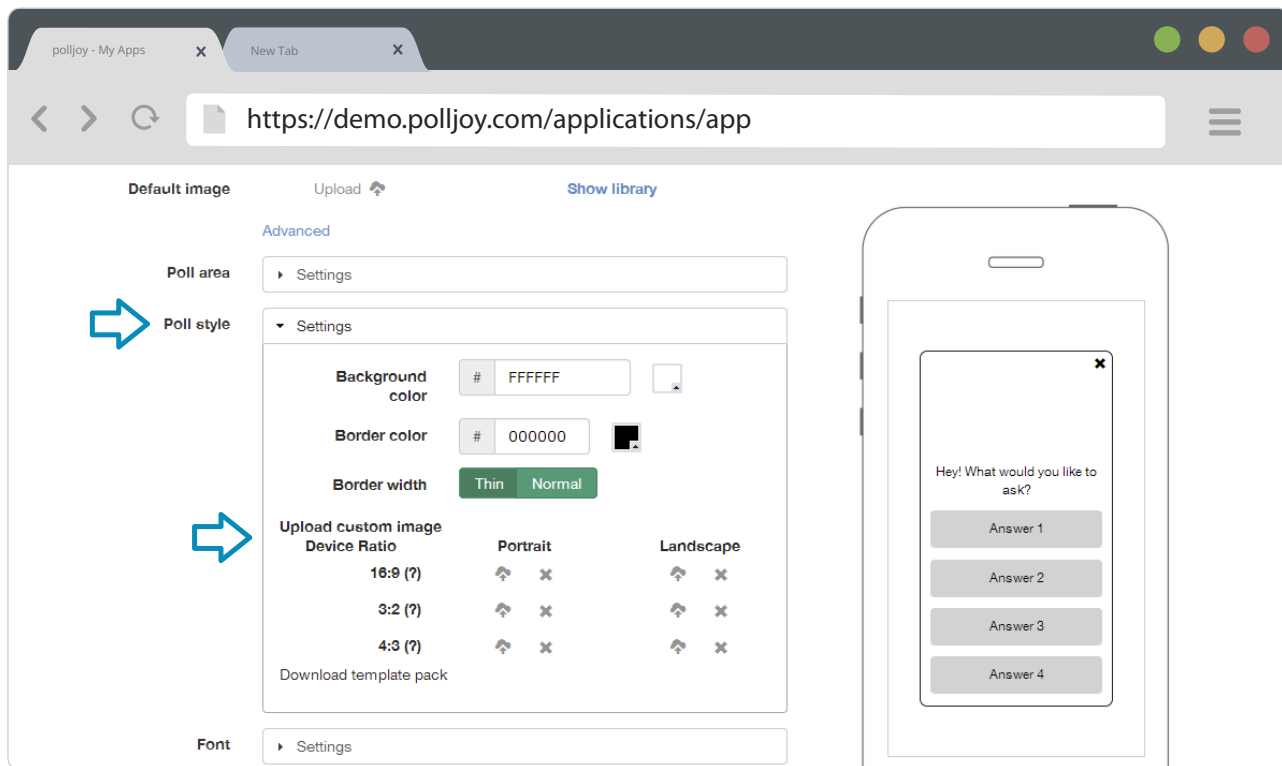

You can easily get a real time preview of your custom styles on polljoy.

Go to [demo.polljoy.com](https://demo.polljoy.com) and tap **My apps** and tap **Add app**:

Then in this screen tap the Advanced button and then open up the Poll Styles and Button sections.

Here you can upload your custom background and borders, buttons as well as download the template pack if you haven't already (it contains example images and PSD files).

Whatever you upload will be previewed in real time on the page, and you can adjust the views (eg view different devices, upload your app's background) by tapping

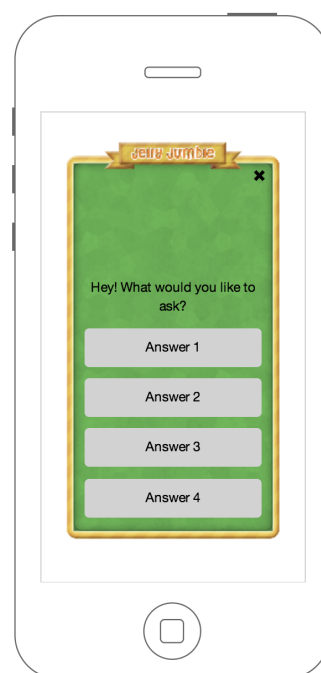

### View settings.

In the close and reward section you can upload your close button and virtual currency icon (if any).

## To view your style with actual poll content

You can save your App by giving it a name and hitting **Create**

Then you can return to **Add a poll** and select your app, and then preview any questions on your design:
